In general:

- Make all banner images fit the height of the screen to reduce scrolling
- Fix content flowing out of the screen, which causes horizontal scrolling
- Change the footer color to Black and make it a bit thicker
- Create a hover state for the nav bar so that the text turns orange when hovered
- Reduce the size of the overwatch logo in the nav bar a little bit and put a bit more padding-left

Character Page & Setting Page

- make the horizontal and vertical gaps of the columns equal
- create hover states so that the character/setting box expands a bit on hover
- make the border around the character/setting images a little bit thicker

How To:

- Fix the little gap between the orange box and the footer

About Us:

- Try to improve resolution of the first banner image, or find a new one

Overall, it looks very nice!
